Arithmetical Physics

Filesize: 7.54 MB

Reviews

A high quality pdf as well as the typeface applied was exciting to see. It really is writter in simple words and phrases rather than difficult to understand. You will not really feel monotony at at any time of your time (that's what catalogs are for relating to in the event you question me). (Robyn Nolan)

ARITHMETICAL PHYSICS

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English. Brand New Book ***** Print on Demand *****. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1891 Excerpt: .upon each other and upon magnets. I propose to make reference to this mechanism in a future edition of Book F, and at the same time introduce the student to some further exercises to be called Quantitative Exercises in Lines of Force. QUESTIONS GIVEN AT THE SCIENCE AND ART DEPARTMENT EXAMINATIONS, IN MAGNETISM AND ELECTRICITY, ELEMENTARY STAGE, DURING THE VEARS 1881-91. -CLASSIFIED UNDER THE DIFFERENT HEADINGS OF TUB SYLLABUS. The headings of the syllabus are indicated by quotation marks. Note.--The answers to these questions are not given for the following reasons: --1.--The answers required are generally descriptive, and for these, even were it desirable to insert them, there is not space. 2.--The answers required are merely applications of the first principles of the science, and the earnest student will have little difficulty in knowing whether his answers are right or wrong. SUBJECT IX. MAGNETISM AND ELECTRICITY. Note.--An Outline of Elementary Experiments, together with a description of the necessary Apparatus for illustrating this subject, has been prepared, and may be obtained on application to the Department, price 3d. I.-MAGNETISM. CLASS A. General Properties of Magnets.--Attraction of iron. Action of magnets one upon another. Distinction between poles. Position of equilibrium of suspended magnet. Magnetic axis of a magnet. Magnetic meridian; Declination; Inclination (Dip). Names of poles. Behaviour to one another of like named and unlike named poles. I NcrWE.--The figures within brackets at end of each question refer to the number of the question and its date....
